

GREEN TECHNOLOGY

SUMMER 2012

Looking for something educational and fun for summer? Quick Study Labs can help!

Green Technology is for our young scientists and the young at heart. Age 8 to 108. Learners of all ages will LOVE this class. Our younger students will of course need help with vocabulary, addition, subtraction, multiplication and division. No heavy math, just lots of fun and hands-on learning.

Build solar-powered circuits, wind mills, water wheels and much more! Learn about alternative energy sources. Every lesson has a hands-on circuit to build.

Green Technology is a SUMMER-ONLY CLASS

Class begins May 21st, Register Today!

9-Weeks of lessons, 2-Lessons Each Week (FLEX-Schedule see website for details)

Tuition is \$55---Register Early!

To address the problem of travel and other summer activities, QSL will have a FLEX-schedule for GREEN TECHNOLOGY! For full details and to register on-line, go to www.quickstudylabs.com, choose "About the Classes" from the main menu and look for GREEN TECHNOLOGY!
